You know you need the right information at the right time to effectively manage your school, but there's a lot going on. You want to keep up with changes as they are happening. You need to see the big picture at a glance, but you also want to drill down into the details. You don't want to have to run a new report or log into multiple applications just to get an update. You want a set of dynamic, up-to-the-minute analyses customized just for you, with exactly the data you need. And you want it be available with a single click, no matter which application you're currently using.

Senior Dashboard™ is a set of optional modules which provide a graphical, flexible, and highly customizable information display that is available across all Senior applications. Choose the dashboard modules you need based on which types of Senior products you have installed:

Senior Dashboard™ for Admissions

Senior Dashboard™ for Academics

Senior Dashboard™ for Business Office

Senior Dashboard™ for Alumni/Development
