The administrative needs of summer school, summer camps, and other extended programs vary greatly. You may have academic summer school courses that are similar to your “winter school” offerings, in which case you need a complete student information system with grading and transfer of credit to student transcripts. You may run one or more summer camps with special programs unrelated to your normal school activities. You may also have extended day programs, night classes, or other special programs that run year-round or at various times unrelated to the normal school schedule. You need an information system that is totally flexible and can handle multiple programs simultaneously. And you want your summer school software to integrate with your student information system and accounting software.

Senior Summer School™ is a full featured information and management system designed specifically for the unique needs of summer schools, summer camps and extended programs. Here are just a few of the features:

- ✓ New student entry wizard to tie new registrants to existing student records where appropriate
- ✓ Track and report on program inquiries
- ✓ Maintain checklists of forms or other requirements with automated mailings for missing items
- ✓ Unlimited programs, courses, and sections
- ✓ Quick and easy entry of registrations and payments, with waitlist and transfer processing
- ✓ Full grading and attendance capabilities; transfer grades for summer school courses to student transcripts
- ✓ Easy to create customized mailings to registrants and parents
- ✓ Extensive reporting and data export for summary and detail data and schedules
- ✓ Integrates with ***Senior Registrar™*** and ***Senior Accounts Receivable™*** to share student and payment data
- ✓ Integrates with ***Senior General Ledger™*** for payment and revenue posting
- ✓ Add the ***Online Summer/Program Registration option for My Backpack™*** to allow parents to register, select courses and programs, and make payments online
- ✓ Add the ***My Backpack™ Student/Parent Community*** to provide student and parent access to homework, grades and comments, and biographical data
