My BackPack Software Features

Daily Gradebook Add-on

Daily Grade book is an add-on component to the Faculty/Staff community. This product is a web-based grade book for teachers which integrates with our Registrar product. Some of its features include:

- A wizard that will guide you through the set up of your grade book
- Up-to-date rosters from Registrar
- Web-based, making it accessible from any computer with internet access
- User-defined assignment groups and grading keys
- Percentage and total points weighting of assignment for marking period grade calculation
- Mass update grading columns
- Copy assignments across grade books
- Assign student-specific grading scales
- Bell curve assignments
- Apply your school's attendance policies to student's grades
- Flexible progress and roster reports with export capabilities
- Marking period grades from the grade books update into Registrar
- Fully integrated with My BackPack Faculty/Staff web-based community
- Like all My BackPack software, Daily Grade Book transfers over https via secure 128-bit encryption
- Web-based design allows for single server update and assurance that all teachers are using the same version of Daily Grade Book
- Send e-mail to parents and students in your classes through My BackPack
- Grade book templates to streamline the setup process
- Archival and retrieval of grade books
- Copy assignments from an archived grade book
- Homework assignments integrated with the Student/Parent Community
