

SeniorSystems

Placement Software Features

The Senior Placement system allow for tracking of student applications to outside institutions. The module allows you to maintain information on each institution as well as personal contact data for each organization.

The Placement module allows for unlimited student applications to be entered as well as tracking of student scholarships and any other items required by the institution.

Our School Scattergram feature allows families to compare college choices based on past student GPA and standardize testing information.

- Track college information such as type, deadline date and main address information
(see *Image 1 below*)
- Maintain college representative contact information including specific address, phone number, e-mail and job title for each contact (see *Image 2 below*)
- Track college visits and school-sponsored trip information
- View students and each college applied to
- Track student applications to each college (see *Image 3 below*)
- User-defined decision status for each application
- View students for each college
- Prioritize applications to view student's top choices
- Utilizes a user-defined Placement ID to maintain anonymity of applications on reports
- View student biographical information, academic history, test scores, and activities
- Print reports of schools applied to per student with GPAs and test scores
- Print school enrollment lists
- Display summary of decisions for each school
- Easy to use label printing and mail merging of college and school representative contact
