Give parents, faculty, and students the ability to view school-related data from their mobile devices with Senior Systems Mobile Apps

With an intuitive user interface, Senior Systems Mobile is specifically designed for that— an easy and convenient way to access important student information from anywhere! Integrated with My BackPack™ and Web Services, students, parents, and faculty will be able to view school-related data in real-time. In addition, your faculty will have more accessibility by being able to edit the daily attendance, class attendance, and so much more! With our Mobile Apps, everyone has access to the same data while on-the-go!

User icons for Students and Parents

Grades: Students and Parents are able to view student grades and teacher comments for a selected marking period.

Schedule: Students and Parents are able to view the student's schedule for the current day or a later date.

Attendance: Students and Parents are able to view attendance records and totals.

Homework: Integrated with Daily Gradebook, Students and Parents can view upcoming, graded, and/or missing assignments.

In addition, parents will have these features available

Summary: Easily view student information: student picture, name, grade level, advisor, and homeroom teacher.

Balance: Parents are able to view their account balance by student for both regular and debit accounts.

User icons for Faculty

Course Grades: Faculty are able to view marking period grades and comments for their students.

Daily Attendance: Faculty are able to enter daily attendance records for their classes.

My Schedule: Faculty can view their schedule for the current day or they can select a later date.

Class Attendance: Faculty are able to enter class attendance records for their classes.
